

# Case Files Neurology Third Edition: A Succinct Clinical Companion with Clerkship Correlation

Case Files Neurology Third Edition is the perfect resource for students and residents looking for a portable and easy-to-use reference on neurology. The book contains 50 clinical cases, each written by an expert in the field. The cases are presented in a consistent manner, with a brief history and physical examination, followed by a discussion of the differential diagnosis, laboratory tests, imaging studies, and management options. The book also includes a chapter on how to survive the neurology clerkship, which offers tips on how to prepare for the clerkship, how to succeed on the wards, and how to get the most out of your experience.

## Features

- 50 clinical cases, each written by an expert in the field
- Consistent presentation of cases, with a brief history and physical examination, followed by a discussion of the differential diagnosis, laboratory tests, imaging studies, and management options
