Paper fortune tellers are a fun and easy way to tell your kids how much you love and appreciate them. They're also a great way to teach them about positive thinking and self-esteem.

To make a paper fortune teller, you'll need a square piece of paper. Fold it in half diagonally, then unfold it. Fold it in half again, this time from top to bottom, and unfold it again. You should now have four creases in your paper.

Bring the top two corners of the paper together and fold them down to meet the bottom edge. Then, fold the bottom two corners up to meet the top edge. You should now have a triangle.

Fold the left and right sides of the triangle inward to meet the center line. Then, fold the top and bottom sides of the triangle inward to meet the center line. You should now have a square.

Open up the square and flatten it out. You should now have eight flaps.

To use the fortune teller, hold it in your hands with the flaps facing up. Think of a question or a situation that you want to ask the fortune teller about. Then, use your fingers to lift up the flaps and follow the instructions on the flaps to find your answer.

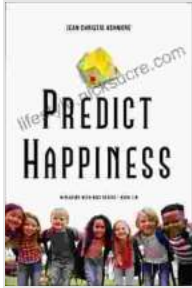

Here are some sample fortunes that you can write on the flaps of your fortune teller:

* You are loved and cherished. * You are special and unique. * You can do anything you set your mind to. * You are brave and strong. * You are kind and compassionate. * You are a wonderful friend. * You are a great student. * You are a talented artist. * You are a gifted athlete. * You are a future leader.

You can also use your fortune teller to tell your kids about their future. For example, you could write fortunes like:

* You will have a successful career. * You will find true love. * You will travel the world. * You will make a difference in the world.

No matter what you write on the flaps of your fortune teller, the most important thing is to use it to tell your kids how much you love and believe in them. Fortune tellers are a fun and easy way to show your kids that you care and that you're always there for them.
