The SAT, a standardized test widely used for college admissions, is undergoing significant changes in 2024. Among the most notable revisions is the revamping of the Math section. This article will provide a comprehensive overview of the new SAT 2024 Math section, including its format, question types, and strategies for success. Understanding these changes will empower students to prepare effectively and maximize their performance on test day.

## Format of the New SAT 2024 Math Section

The new SAT 2024 Math section will consist of two parts:

1. **Evidence-Based Reading and Writing (EBRW):** This section has been revised to place a greater emphasis on evidence-based comprehension and critical thinking skills. It includes three types of questions: Reading, Writing and Language, and Math.

2. **Math:** This section will be entirely dedicated to math questions and will be divided into three parts: Heart of Algebra, Problem Solving and Data Analysis, and Advanced Math.

The total time allocated for both the EBRW and Math sections combined is 2 hours and 55 minutes. The Math section alone will have a time limit of 80 minutes.

### Question Types in the New SAT 2024 Math Section

The new SAT 2024 Math section will feature a variety of question types, including:

- **Multiple Choice:** These questions provide four answer choices, and students must select the best answer from the options provided.
- **Grid-In:** These questions require students to write their answer in a designated grid on the answer sheet. No answer choices are provided.
- **Short Answer:** These questions require students to provide a brief written response to a question. Again, no answer choices are provided.

The distribution of question types in the new SAT 2024 Math section is as follows:

Question Type	Number of Questions	Percentage
Multiple Choice	38	57%
Grid-In	12	18%
Short Answer	10	15%

## Strategies for Success in the New SAT 2024 Math Section

To excel in the new SAT 2024 Math section, students should employ a combination of effective preparation strategies, including:

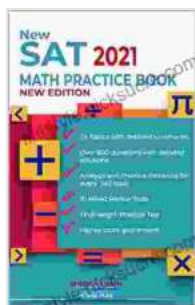

- **Become familiar with the new format and question types:** Thoroughly understand the structure of the section and the different types of questions you will encounter.
- **Practice regularly and timed:** Consistent practice is essential to build proficiency and time management skills. Utilize practice tests and online resources.
- **Identify your strengths and weaknesses:** Take diagnostic tests to pinpoint areas where you excel and those that need improvement.
- **Focus on conceptual understanding:** Aim to grasp the underlying concepts behind math problems rather than memorizing formulas.
- **Utilize technology wisely:** The new SAT 2024 Math section allows the use of calculators on certain questions. Learn how to use calculators effectively and efficiently.
- **Manage your time effectively:** Develop a time management strategy to allocate time wisely during the section.
- **Review your work carefully:** Before submitting your answers, take time to review your work and identify any potential errors.

## Practice Resources for the New SAT 2024 Math Section

Various resources are available to help students prepare for the new SAT 2024 Math section, including:

- **Official College Board Practice Tests:** The College Board, the organization that administers the SAT, provides multiple practice tests on their website.
- **SAT Preparation Books:** Numerous reputable publishers offer SAT preparation books that cover the new Math section.
- **Online Courses and Tutoring:** Online courses and private tutoring can provide additional support and guidance.

The SAT 2024 Math section has undergone significant changes, presenting both challenges and opportunities for students. By understanding the new format and question types, employing effective strategies, and utilizing practice resources, students can prepare comprehensively and excel on test day. Mastering the new SAT 2024 Math section will empower students to demonstrate their mathematical abilities and achieve their college admissions goals.
