History and Development

The Remington 870 was first introduced in 1950, and it quickly became a favorite among hunters, law enforcement officers, and military personnel. The shotgun was designed by John Pedersen, who also designed the Remington Model 11 and the Winchester Model 12. The 870 is a pump-action shotgun, which means that it is operated by manually cycling the slide action to chamber a round and eject a spent casing. The shotgun is available in a variety of barrel lengths and configurations, making it suitable for a wide range of applications.

Models and Variations

The Remington 870 is available in a wide range of models and variations, including the following:

- The 870 Express is the most basic model of the 870, and it is available in a variety of barrel lengths and configurations.
- The 870 Wingmaster is a higher-grade model of the 870, and it features a walnut stock and forend, as well as a checkered grip and forearm.
- The 870 Police Magnum is a law enforcement-specific model of the 870, and it features a heavy-duty barrel and receiver, as well as a synthetic stock and forend.
- The 870 Tactical is a military-specific model of the 870, and it features a pistol grip stock, a collapsible buttstock, and a Picatinny rail on the receiver for mounting optics.
