Jedha: A Sacred World

Nestled in the Outer Rim Territories, Jedha is an ancient planet considered sacred to Force users across the galaxy. For centuries, pilgrims have flocked to its surface, seeking spiritual guidance and connecting with the Force. The planet's unique mineral deposits, known as kyber crystals, amplify the connection to the Force, making it a coveted resource.

Aftermath of the Galactic Civil War

Scholars and explorers ventured into the ruins, uncovering ancient Jedi texts and artifacts, shedding light on the planet's rich history.
